

Press Release

New Football Goals Installed at Havenstreet Recreation Ground

Havenstreet & Ashey Parish Council is delighted to announce the installation of new football goals at Havenstreet Recreation Ground, further enhancing the facilities available for local residents and families to enjoy.

The new goals have been purchased by the Parish Council as part of its ongoing commitment to improving community amenities and encouraging outdoor recreation for people of all ages.

The addition follows the successful installation of picnic benches in recent years, which have helped make the recreation ground an attractive space for families, friends, and visitors to spend time together. The new football goals provide another opportunity for residents, particularly young people, to enjoy healthy outdoor activity within the village.

Councillor Sam Newnham said:

"We are delighted to see the new football goals in place. The recreation ground is an important community asset, and we hope these facilities will encourage even more families and residents to make use of the space for recreation, exercise, and social activities."

Chairman Tony Barry added:

"The Parish Council is committed to investing in facilities that benefit our community. Following the addition of the picnic benches, the football goals are another positive improvement that we believe will be enjoyed by residents for many years to come. We are pleased to be able to provide facilities that encourage people to get outdoors and make the most of the recreation ground."

Havenstreet & Ashey Parish Council hopes the new goals will be well used by local children, families, and community groups, helping to promote healthy lifestyles and provide opportunities for informal sport and recreation in the heart of the village.
